

METHOD AND SYSTEM FOR SERVICE-ENABLEMENT  
GATEWAY AND ITS SERVICE PORTALABSTRACT OF THE INVENTION

A method and system for dynamic service support is presented. A portal-page service and an interface bundle are installed at the gateway. A customer service at the gateway, based on the interface bundle, is installed at the gateway. The portal-page service searches for the customer service and generates a user interface for the customer service based on the customer service. The portal-page service generates a portal-page based on the user interface and the portal page service.
